Sherry Knutson co-chairs the Tucker Ellis Health & Life Sciences Group.

Appreciated by clients as “a fantastic trial partner,” Sherry has tried cases to verdict in Illinois, Wisconsin, New Jersey, and West Virginia. She has 25 years of experience in product liability and toxic tort cases, with an emphasis on defending pharmaceutical and medical device companies. Sherry’s practice ranges from multi-plaintiff, multi-jurisdiction litigations to single plaintiff cases. She has served as national coordinating counsel in multiple pharmaceutical mass torts. Sherry also has served as lead counsel in several coordinated proceedings in Chicago.

Sherry is committed to providing excellent client service through the unique Tucker Ellis culture that promotes teamwork, value, and predictability. Clients describe her as “an exceptional attorney” with “a knack for understanding very complex scientific and medical issues and making them easy to understand to both clients and a layperson on the jury.” Ranked in Chambers USA 2021 in the area of Product Liability & Mass Torts (Nationwide), clients praise Sherry as “hard-working, a consummate professional and extremely well prepared,” “an amazing trial attorney who has great presence,” and “creative, thoughtful and smart.” According to Who’s Who Legal, where she is recognized in both “Life Sciences – Product Liability” and “Product Liability Defence,” Sherry is championed as “one of the best leaders in the national counsel role” by peers who consider her “truly one of the best out there” for her work in product liability and toxic tort cases. She is described as “superbly qualified, knowledgeable,” with “a keen ability to develop sophisticated strategies which bring excellent results on a consistent basis and in an efficient and cost effective manner.”

Early in her career, Sherry clerked for the Honorable N. Patrick Crooks of the Wisconsin Supreme Court, who reinforced integrity and civility in the law – values Sherry has carried with her throughout her career.

Sherry, her husband, twin boys, and dogs split their time between the Ronald McDonald House in Chicago and a log cabin in rural Indiana, enjoying all the best of the city and country.
