Our trial lawyers are experienced and accomplished in handling class action litigation in jurisdictions throughout the United States. We resolve suits brought by consumers, competitors, suppliers, employees, investors, shareholders, and regulators across many areas of the law – including consumer fraud, product warranties, contracts, insurance, employment, product liability, antitrust, securities, employee benefits, health care, and business torts. Our lawyers have the right skills and experience to handle any type of class action dispute for our clients.

Our team approach to our class action matters, as well as our use of technology and litigation management techniques, maximizes efficiency and promotes collaboration both within our firm and with our clients. Our experience handling class actions allows us to help our clients efficiently resolve cases to their satisfaction and in conformance with their goals. Because class actions are frequently filed in jurisdictions nationwide, our lawyers commonly work in “virtual law firms” with other firms around the country to bring our clients the best lawyers for the task at hand and to coordinate a consistent defense across jurisdictions.

Tucker Ellis holds a National Tier 1 ranking in Mass Tort Litigation and Class Actions – Defendants in *U.S. News – Best Lawyers®* “Best Law Firms,” and we were named one of the 15 “Most Active Class Action Defendant Law Firms” for 2014 (as ranked by *Class Action Reporter*, a daily newsletter devoted solely to the key details of virtually every major class action suit filed in the United States). We are also proud to be ranked in *Chambers USA* in the category of Litigation: General Commercial (Ohio), where one client remarks, “The firm is very interested in making and keeping us happy; they make us feel valued.” Another source adds, “They have been consistently knowledgeable and timely, and they demonstrate good judgment.”
